

DIANA KUSUMA WARDANI

diana.kusuma@email.com | +65 9123-4567 | Singapore / Batam

EXECUTIVE SUMMARY

Senior Cloud & Data Center Architect dengan 8 tahun pengalaman internasional. Expert dalam Cloud Computing (AWS/Azure/GCP), Virtualization, Cybersecurity, Data Center Operations, Power Systems, Cooling Systems, AI/ML infrastructure, Networking, Linux Administration, Docker, Kubernetes, dan DCIM.

EDUCATION

S2 Computer Science · Nanyang Technological University Singapore (2014-2016)

S1 Teknik Informatika · Institut Teknologi Bandung (2010-2014)

PROFESSIONAL EXPERIENCE

Senior Cloud Architect · Keppel DC Singapore (2020-sekarang)

- Merancang arsitektur cloud hybrid multi-cloud (AWS, Azure, GCP) untuk 30+ klien enterprise.
- Data Center Operations: oversight operasional 3 DC Tier III+ dengan total kapasitas 80MW.
- Power Systems: desain sistem 2N redundant UPS dan genset untuk DC baru Keppel.
- Cooling Systems: implementasi chilled water plant dan liquid cooling untuk HPC cluster.
- AI/ML Infrastructure: deploy GPU cluster (NVIDIA DGX A100) untuk klien AI di Singapore.
- Cybersecurity: Zero Trust Architecture, SOC2 Type II, ISO 27001 compliance.
- Networking: merancang spine-leaf fabric 400GbE dengan BGP EVPN/VXLAN.
- Linux Administration: automation infrastruktur dengan Ansible, Terraform, Python.
- Virtualization: VMware vSphere 8, Nutanix HCI, OpenStack private cloud.

Infrastructure Lead · ST Telemedia Singapore (2016-2020)

- Memimpin tim 15 engineer untuk ekspansi DC ST Telemedia di Singapore dan Batam.
- Cloud Computing: migrasi workload on-premise ke AWS dan Azure (lift & shift + re-arch).
- Implementasi DCIM (Data Center Infrastructure Management) Schneider EcoStruxure.

KEY SKILLS

Cloud Computing: AWS (Solutions Architect Pro), Azure (Expert), GCP, multi-cloud.
Virtualization: VMware vSphere, Nutanix, KVM, Kubernetes, Docker, OpenStack.
Data Center Operations: Tier III/IV design, DCIM, capacity planning, TIA-942.
Power Systems: 2N/N+1 UPS, ATS, genset, power chain optimization, PUE < 1.3.
Cooling Systems: chilled water, liquid cooling, free cooling, CRAC/CRAH.
Cybersecurity: Zero Trust, SIEM, SOC, ISO 27001, PCI-DSS, penetration testing.
Networking: 400GbE DC fabric, BGP EVPN, VXLAN, SD-WAN, network automation.
Linux Administration: RHEL, Ubuntu, Python automation, Ansible, Terraform.
AI/ML: GPU cluster design, NVIDIA DGX, MLOps infrastructure, HPC storage.
SQL Server: database administration, high availability, Always On AG.
Docker: container platform, registry, security scanning.
Kubernetes: K8s cluster management, Helm, service mesh Istio.

CERTIFICATIONS

AWS Certified Solutions Architect Professional
Azure Solutions Architect Expert
VMware VCDX (Data Center Virtualization)
CISSP (Certified Information Systems Security Professional)
Uptime Institute AOS (Accredited Operations Specialist)

LANGUAGES

Bahasa Indonesia (Native), English (Native/Bilingual), Mandarin (Conversational)
